### ICT Mahidol staff served as the guest speaker on topic, “Creating Art with AI”

On September 6, 2023 – Miss Sirirat Wittayakunsatid, Audio-Visual Technical Officer from Audio Visual and Digital Learning Media Development Department, the Faculty of Information and Communication Technology, as well as Mr. Chalernpol Phuwatadisit from Division of Information Technology (MUIT), Office of the President, Mahidol University, served as guest speakers on the topic of “Creating Art with AI” for the students and staff of Mahidol University. The event took place in Platoon 1-3 Room, Mahidol University Library and Knowledge Center, Mahidol University, Salaya.

The practical training program on “Creating Art with AI” is part of the “MAHIDOL UNIQUENESS” competition organized by the Office of Academic Affairs and the Mahidol University Library and Knowledge Center. Its objective is to provide participants with the skills to apply artificial intelligence (AI) techniques in creating efficient and effective artistic works. This knowledge will enable participants to apply these skills effectively in their future work. Additionally, participants learned how to use AI in designing artwork while respecting copyright. For more information about the image copyright, please contact the Faculty of ICT at Tel: 02-441-0909.
